Contact Information

- Contact information may change throughout the year, OTSO will keep sub-grantees as up to date as possible.
- These Contact Information slides will be updated as needed. Please refer back to these slides.

Traffic Safety Grant Program Overview

- The Federal Highway Safety Act of 1966 directed the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration (FHWA) of the U.S. Department of Transportation to jointly administer various highway safety projects. This federal grant program provides federal funds administered through the Ohio Department of Public Safety (ODPS), Ohio State Highway Patrol (OSHP)/ Ohio Traffic Safety Office (OTSO) to eligible entities to be used in part for, but not limited to, traffic safety education, enforcement and awareness.

Traffic Safety Grant Program Overview

- Funds are to be used for short-term highway safety support, with the intent that other sources of funding will sustain programs over the long term.
- The federal grant program operates on a reimbursement basis.
- OTSO will use the following criteria to determine each grant proposal's funding eligibility:
 - Met the submission deadline
 - Met the minimum proposal requirements
 - Explained how the proposal specifically helps reduce Ohio's traffic-related fatal crashes

Traffic Safety Grant Program Overview

- OTSO will award grants based on:
 - The amount of funding available to OTSO
 - The total number of proposals submitted to OTSO
 - Past performance of the sub-grantee (if applicable)
- OTSO reserves the right to limit the number of grants awarded and the awarded amounts at any time based on available funding, ability to impact statewide goals and performance.

Traffic Safety Grant Program Overview

- FFY 2017 Traffic Safety Grant Proposals must be submitted via the website no later than 11:59 p.m. on Sunday, May 15, 2016.
- Late proposals will not be considered for funding. OTSO is not responsible for an applicant's personal computer or internet access failure occurring at the proposal deadline. In the event that OTSO experiences an internal server malfunction, OTSO will notify Proposal Administrators of an updated submission deadline.

Competitive Grants Funding Priorities

- Ohio has joined the national effort, *Toward Zero Deaths: A National Strategy on Highway Safety*.
- In 2014, there were 1,006 fatalities on Ohio's roads. Ohio's current fatality rate is 0.95 fatalities per 100 million vehicle miles traveled.
- Competitive grants will be directed toward those state and local community traffic safety activities that will have the greatest impact toward fatal crash reduction.
- Each proposal should focus on one or more of these issues:
 - Alcohol/drug-impaired driving
 - Occupant protection
 - And/or Speed management

Problem Identification Process

- For FFY 2017, OTSO conducted an in-depth analysis of traffic crash data to identify and prioritize traffic safety problems and to target fatal crash locations for traffic safety programming. OTSO focuses the majority of its grant funding on these areas. They have been identified as locations where programming may have the most impact on a statewide level.
- The data used in this process include traffic crash data from 2013, 2014 and 2015.

IMPAIRED DRIVING ENFORCEMENT PROGRAM

Proposal Guidelines

Impaired Driving Enforcement Program

- High Visibility Enforcement (HVE) is a universal traffic safety approach designed to create deterrence and change unlawful traffic behaviors. HVE combines highly visible and proactive law enforcement targeting a specific traffic safety issue. Law enforcement efforts are combined with visibility elements and a publicity strategy to educate the public and promote voluntary compliance with the law.
- A law enforcement agency must conduct HVE activities in areas to impact their impaired driving fatal crashes. Overtime enforcement will be considered for funding between 6 p.m. and 6 a.m. at those times and locations deemed appropriate, based on local needs and as supported by local fatal/serious injury crash problem identification.

Impaired Driving Enforcement Program

Minimum Eligibility Requirements

- To be eligible for Impaired Driving Enforcement Program (IDEP) grant funding, your agency must have an established road patrol that conducts routine traffic enforcement and satisfy all of the following requirements:
 - During 2013, 2014, and 2015, your jurisdiction experienced an average of at least 2.0 motor vehicle related fatal crashes (total of six or more fatal crashes during these three years) as reported in the Fatality Analysis Reporting System (FARS).
 - Each agency must apply for the Selective Traffic Enforcement Program (STEP) to conduct enforcement activities other than impaired driving during mandatory blitzes, including “Click It or Ticket”.
 - Submit a press release to the local media announcing the grant award.
 - Conduct all OTSO mandatory blitzes, including “Drive Sober or Get Pulled Over”.

Impaired Driving Enforcement Program

Minimum Eligibility Requirements (cont.)

- Attempt to publicize efforts during each blitz and national enforcement campaign. Agencies will take appropriate action to contact media about the intent of the targeted enforcement activity prior to its implementation and the results of the enforcement efforts upon completion.
- All sub-grantees are required to work with other jurisdictions on common corridors to achieve the HVE concept.

If your agency agrees to meet all of these requirements, your agency is eligible for funding consideration.

Impaired Driving Enforcement Program

Jurisdiction Sizes

- OTSO will reimburse each jurisdiction based on the chart below for high visibility enforcement activities. The amount of reimbursable hours is based upon the jurisdiction's population size:

Jurisdiction Population Size	
Small	1,000 – 99,999
Medium	100,000 – 300,000
